PROFESSIONAL SUMMARY

Proactive Systems Engineer and Data Scientist with strong analytical and problem-solving skills, bridging technical engineering and data-driven business insights. Hands-on experience building Python automation tools, ETL data pipelines, and BI dashboards across retail, government, and tech sectors. Demonstrated ability to rapidly master new tools and deliver measurable results: reduced errors by 25%, improved accuracy by 30%, and saved 15% in costs. Excellent communication skills with proven ability to collaborate cross-functionally. Eager to solve complex business problems in fast-paced consulting or tech environments.

TECHNICAL SKILLS

Programming:

Python (Pandas, NumPy, Scikit-learn, TensorFlow, Keras), SQL, C#, Java, JavaScript

Databases:

PostgreSQL, MongoDB, MySQL, SQL Server, Data Modeling, Data Warehouse

BI & Analytics:

Power BI (PL-300 Certified), Tableau, Looker, Excel, DAX, Statistical Analysis

Data Engineering:

ETL Pipelines, RESTful APIs, JSON, Data Wrangling, Data Analysis

Cloud & DevOps:

AWS (Certified), Azure, GCP, Kubernetes, Git/GitHub, CI/CD, Docker

Soft Skills:

Agile/Scrum, Problem-Solving, Analytical Thinking, Communication, Teamwork

PROFESSIONAL EXPERIENCE

Machine Learning Engineer (Contract)

Booking.com - Amsterdam, Netherlands

May 2025 - Oct 2025

- Led the development of a dynamic pricing optimization system, deploying advanced Machine Learning models (Python, Scikit-learn, XGBoost, neural networks) for real-time price adjustments based on demand, competition, and customer behavior.
- Analyzed over 5 million historical booking records, identifying patterns that improved segmentation and promotional campaign effectiveness.
- Integrated models into Booking.com's AWS production environment, ensuring scalability and continuous monitoring.
- Mastered internal forecasting tools, contributing to a 12% improvement in promotional targeting accuracy.

Python Developer

Eurobrico S.p.A. - Villa Castel Ivano, Italy

Nov 2024 - Apr 2025

- Developed and maintained internal applications to optimize inventory management and retail operations.
- Implemented data integration solutions and automation tools, improving efficiency and reducing manual errors.
- Collaborated with department heads to translate business needs into effective technology solutions.

Data Science Analyst/Sr. Analyst - Supply Chain & Operations

Accenture - Argentina (Remote)

Jun 2024 - Nov 2024

- Developed predictive and optimization models for supply chain using Python, SQL, and Power BI.
- Implemented machine learning to forecast demand and optimize inventory, achieving a 15% cost reduction.
- Created interactive dashboards in Tableau and Power BI to visualize critical KPIs.
- Collaborated with multidisciplinary teams using agile methodologies (Scrum).

Data Analyst & Power BI Specialist

Government of Córdoba - Córdoba, Argentina

Nov 2023 - Jun 2024

- Designed and maintained 15+ Power BI dashboards for public works KPIs tracking.
- Performed data cleaning and modeling on 200K+ record datasets, improving report accuracy by 30%.
- Automated certification reporting, reducing manual effort by 40%.

Data Annotation & Evaluation

Appen - Argentina (Remote)

Jan 2023 - Apr 2024

- Annotated and evaluated data for AI projects, improving data quality and NLP model accuracy.
- Collaborated with global teams to optimize data collection and quality control processes.

Purchasing & Inventory Analyst

Farmasut - Córdoba, Argentina

Nov 2015 - Oct 2023

- Conducted inventory audits and sales analysis with Tableau, reducing expiration losses by 15%.
- Optimized delivery routes through data analysis, decreasing logistics costs.
- Developed forecasting reports for purchasing based on historical trends.

EDUCATION

Systems Engineer

Feb 2018 - Feb 2024

National Technological University (UTN), Argentina

Bachelor's in Business Administration (In Progress)

Feb 2015 - Present

National University of Cordoba, Argentina

CERTIFICATIONS

- Microsoft Power BI Data Analyst (PL-300) - Microsoft (2024)
- Machine Learning with Python - IBM (2025)
- Deep Learning Fundamentals - IBM (2025)
- Deep Learning with TensorFlow - IBM (2025)
- Python (Basic) Certificate - HackerRank (2026)
- Software Engineer Certificate - HackerRank (2026)
- AWS Cloud Practitioner - Amazon Web Services (2024)
- Google Data Analytics Professional Certificate - Google (2024)
- Intermediate Machine Learning - Kaggle (2024)

KEY PROJECTS

Crypto Analysis Dashboard

Tools: Python, Streamlit, Plotly, Binance API, ML, Telegram Bot

Professional cryptocurrency market analysis system with real-time data, algorithmic trading strategies, and modern web interface.

ETL Big Data Pipeline

Tools: Python, ETL, Backtesting, Risk Metrics, API Integration

Automated ETL pipeline for financial data processing, backtesting trading strategies, and risk analysis.

JobConnect - AI Job Finder

Tools: Flask, AI/NLP, Web Scraping, Tailwind CSS

Web platform using AI to match CVs with job opportunities across multiple platforms.

LANGUAGES

English (Fluent) | Spanish (Native) | Italian (Native)
